Administrator of Energy Information Administration within Department of Energy by section 7135(c) of Title 42, The Public Health and Welfare.

# CHAPTER 16C—ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION

791. Congressional declaration of purpose. 792. Coal conversion and allocation. 793. Protection of public health and environment. 794. Energy conservation study. Report to Congress by January 31, 1975. 795. 796 Reporting of energy information. 797. Enforcement. 798. Definitions.

#### § 791. Congressional declaration of purpose

The purposes of this chapter are (1) to provide for a means to assist in meeting the essential needs of the United States for fuels, in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment, and (2) to provide requirements for reports respecting energy resources.

#### REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 93–319 which, in addition to enacting this chapter and provision set out as a note under this section, enacted sections 1857c–10 and 1857f–6f of Title 42, The Public Health and Welfare, and amended sections 1857b–1, 1857c–5, 1857c–8, 1857c–9, 1857d–1, 1857f–1, 1857f–6e, 1857f–7, 1857h–5, and 1857l of Title 42. For complete classification of this Act to the Code, see Tables.

#### SHORT TITLE

Pub. L. 93–319,  $\S1(a)$ , June 22, 1974, 88 Stat. 246, provided that Pub. L. 93–319 [enacting this chapter, enacting sections 1857c–10 and 1857f–6f of Title 42, The Public Health and Welfare, and amending sections 1857b–1, 1857c–5, 1857c–8, 1857c–9, 1857d–1, 1857f–1, 1857f–6e, 1857f–7, 1857h–5, and 1857l of Title 42] may be cited as the "Energy Supply and Environmental Coordination Act of 1974".

## § 792. Coal conversion and allocation

## (a) Powerplant and fuel burning installations

The Federal Energy Administrator—

- (1) shall, by order, prohibit any powerplant, and
- (2) may, by order, prohibit any major fuel burning installation, other than a powerplant,

from burning natural gas or petroleum products as its primary energy source, if the requirements of subsection (b) of this section are met and if (A) the Federal Energy Administrator determines such powerplant or installation on June 22, 1974, had, or thereafter acquires or is designed with, the capability and necessary plant equipment to burn coal, or (B) such powerplant or installation is required to meet a design or construction requirement under subsection (c) of this section.

## (b) Prerequisites to issuance or effectiveness of orders prohibiting use of natural gas or petroleum products as primary energy source

The requirements referred to in subsection (a) of this section are as follows:

(1) An order under subsection (a) of this section may not be issued with respect to a powerplant or installation unless the Federal Energy Administrator finds (A) that the burning of coal by such plant or installation, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of this chapter, (B) that coal and coal transportation facilities will be available during the period the order is in effect, and (C) in the case of a powerplant, that the prohibition under subsection (a) of this section will not impair the reliability of service in the area served by such plant. Such an order shall be rescinded or modified to the extent the Federal Energy Administrator determines that any requirement described in subparagraph (A), (B), or (C) of this paragraph is no longer met; and such an order may at any time be modified if the Federal Energy Administrator determines that such order, as modified, complies with the requirements of this section.

(2)(A) Before issuing an order under subsection (a) of this section which is applicable to a powerplant or installation for a period ending on or before June 30, 1975, the Federal Energy Administrator (i) shall give notice to the public and afford interested persons an opportunity for written presentations of data, views, and arguments, (ii) shall consult with the Administrator of the Environmental Protection Agency, and (iii) shall take into account the likelihood that the powerplant or installation will be permitted to burn coal after June 30, 1975.

(B) An order described in subparagraph (A) of this paragraph shall not become effective until the date which the Administrator of the Environmental Protection Agency certifies pursuant to section  $1857c-10(d)(1)(A)^1$  of title 42 is the earliest date that such plant or installation will be able to comply with the air pollution requirements which will be applicable to it. Such order shall not be effective for any period certified by the Administrator of the Environmental Protection Agency pursuant to section  $1857c-10(d)(3)(B)^1$  of title 42.

(3)(A) Before issuing an order under subsection (a) of this section which is applicable to a powerplant or installation after June 30, 1975 (or modifying an order to which paragraph (2) applies, so as to apply such order to a powerplant or installation after such date), the Federal Energy Administrator shall give notice to the public and afford interested persons an opportunity for oral and written presentations of data, views, and arguments.

(B) An order (or modification thereof) described in subparagraph (A) of this paragraph shall not become effective until (i) the Administrator of the Environmental Protection Agency notifies the Federal Energy Administrator under section 1857c–10(d)(1)(B)<sup>1</sup> of title 42 that such plant or installation will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 1857c–10(c)<sup>1</sup> of title 42, or (ii) if such notification is not given, the date

<sup>&</sup>lt;sup>1</sup> See References in Text note below.

which the Administrator of the Environmental Protection Agency certifies pursuant to section  $1857c-10(d)(1)(B)^1$  of title 42 is the earliest date that such plant or installation will be able to comply with all applicable requirements of such  $1857c-10^1$  of title 42. Such order (or modification) shall not be effective during any period certified by the Administrator of the Environmental Protection Agency under section  $1857c-10(d)(3)(B)^1$  of title 42.

# (c) Construction and design of powerplants or other major fuel burning installations

The Federal Energy Administrator may require that any powerplant or other major fuel burning installation in the early planning process (other than a combustion gas turbine or combined cycle unit) be designed and constructed so as to be capable of using coal as its primary energy source. No powerplant or other major fuel burning installation may be required under this subsection to be so designed and constructed, if the Administrator determines that (1) in the case of a powerplant to do so is likely to result in an impairment of reliability or adequacy of service, or (2) an adequate and reliable supply of coal is not expected to be available. In considering whether to impose a design and construction requirement under this subsection, the Federal Energy Administrator shall consider the existence and effects of any contractual commitment for the construction of such facilities and the capability of the owner to recover any capital investment made as a result of any requirement imposed under this subsection.

#### (d) Allocation of coal

The Federal Energy Administrator may, by rule or order, allocate coal (1) to any powerplant or major fuel-burning installation to which an order under subsection (a) of this section has been issued, or (2) to any other person to the extent necessary to carry out the purposes of this chapter.

## (e) Definitions

For purposes of this section:

- (1) The term "powerplant" means a fossilfuel fired electric generating unit which produces electric power for purposes of sale or exchange.
- (2) The term "coal" includes coal deriva-

## (f) Expiration of authority; effective dates

- (1) Authority to issue orders or rules under subsections (a) through (d) of this section shall expire at midnight, December 31, 1978. Such a rule or order may take effect at any time before January 1, 1985.
- (2) Authority to amend, repeal, rescind, modify, or enforce such rules or orders shall expire at midnight, December 31, 1984; but the expiration of such authority shall not affect any administrative or judicial proceeding which relates to any act or omission which occurred prior to January 1, 1985.

## REFERENCES IN TEXT

This chapter, referred to in subsecs. (b)(1) and (d), was in the original ''this Act'', meaning Pub. L. 93–319. For

complete classification of this Act to the Code, see Short Title note set out under section 791 of this title and Tables.

Section 1857c–10 of title 42, referred to in subsec. (b)(2)(B), (3)(B), was in the original a reference to section 119 of the Clean Air Act, and was repealed by Pub. L. 95–95, §112(b), which provided in part that references in this section to section 1857c–10 shall be construed to refer to section 7413(d) of title 42 and to paragraph (5) thereof in particular. Subsequently, section 7413 of title 42 was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, subsec. (d) no longer relates to final compliance orders. See section 7413(a) of title 42 for provisions relating generally to compliance orders. For further details, see Compliance Orders note set out below.

#### AMENDMENTS

1977—Subsec. (f)(1). Pub. L. 95–70 substituted "shall expire at midnight, December 31, 1978" for "shall expire at midnight, June 30, 1977".

1975—Subsec. (a). Pub. L. 94–163, §101(b), authorized the Administrator to prohibit any powerplant or other fuel burning installation from burning natural gas or petroleum products as its primary energy source if such powerplant or other installation is required to meet a design or construction requirement under subsec. (c) of this section.

Subsec. (c). Pub. L. 94–163, §101(c), inserted "or other major fuel burning installation" after "powerplant" wherever appearing and inserted "in the case of a powerplant" after "if the Administrator determines that (1)".

Subsec. (f)(1). Pub. L. 94–163, \$101(a)(1), substituted "June 30, 1977" for "June 30, 1975" and "January 1, 1985" for "January 1, 1979".

Subsec. (f)(2). Pub. L. 94–163, §101(a)(2), substituted "December 31, 1984" for "December 31, 1978" and "January 1, 1985" for "January 1, 1979".

#### TRANSFER OF FUNCTIONS

Federal Energy Administration terminated and functions vested by law in Administrator thereof transferred to Secretary of Energy (unless otherwise specifically provided) by sections 7151(a) and 7293 of Title 42, The Public Health and Welfare.

## COMPLIANCE ORDERS

Pub. L. 95–95, title I, §112(b), Aug. 7, 1977, 91 Stat. 709, repealed section 119 of the Clean Air Act, which was classified to section 1857c–10 of Title 42, The Public Health and Welfare, and which related to the Administrator's authority to deal with the energy shortage. Section 112(b) of Pub. L. 95–95 provided that:

``(1) Section 119 of such Act [section 1857c–10 of Title 42, The Public Health and Welfare] is hereby repealed. All references to such section 119 [section 1857c-10 of Title 42] or subsections thereof in section 2 of the Energy Supply and Environmental Coordination Act of 1974 (Public Law 93-319) [this section] or any amendment thereto, or any subsequent enactment which supersedes such Act [Pub. L. 93-319, June 22, 1974, 88 Stat. 246], shall be construed to refer to section 113(d) of the Clean Air Act [section 7413(d) of Title 42] and to paragraph (5) thereof in particular. Any certification or notification required to be given by the Administrator of the Environmental Protection Agency under section 2 of the Energy Supply and Environmental Coordination Act of 1974 [this section] or any amendment thereto, or any subsequent enactment which supersedes such Act, shall be given only when the Governor of the State in which is located the source to which the proposed order under section 113(d)(5) of the Clean Air Act [section 7413(d)(5) of Title 42] is to be issued gives his prior written concurrence.

"(2) In the case of any major stationary source to which any requirement is applicable under section 113(d)(5)(B) of the Clean Air Act [section 7413(d)(5)(B) of Title 42] and for which certification is required under

section 2 of the Energy Supply and Environmental Coordination Act of 1974 [this section] or any amendment thereto, or any subsequent enactment which supersedes such Act [Pub. L. 93-319], the Administrator of the Environmental Protection Agency shall certify the date which he determines is the earliest date that such source will be able to comply with all such requirements. In the case of any plant or installation which the Administrator of the Environmental Protection Agency determines (after consultation with the State) will not be subject to an order under section 113(d) of the Clean Air Act [section 7413(d) of Title 42] and for which certification is required under section 2 of the Energy Supply and Environmental Coordination Act of 1974 [this section] or any amendment thereto, or any subsequent enactment which supersedes such Act [Pub. L. 93-319], the Administrator of the Environmental Protection Agency shall certify the date which he determines is the earliest date that such plant or installation will be able to burn coal in compliance with all applicable emission limitations under the implementa-

"(3) Any certification required under section 2 of the Energy Supply and Environmental Coordination Act of 1974 [this section] or any amendment thereto, or any subsequent enactment which supersedes such Act [Pub. L. 93–319], or under this subsection may be provided in an order under section 113(d) of the Clean Air Act [section 7413(d) of Title 42]."

## § 793. Protection of public health and environment

#### (a) Distribution of low sulfur fuel

Any allocation program provided for in section 792 of this title or in the Emergency Petroleum Allocation Act of 1973 [15 U.S.C. 751 et seq.], shall, to the maximum extent practicable, include measures to assure that available low sulfur fuel will be distributed on a priority basis to those areas of the United States designated by the Administrator of the Environmental Protection Agency as requiring low sulfur fuel to avoid or minimize adverse impact on public health.

# (b) Study of chronic effects of sulfur oxide emissions among exposed populations

In order to determine the health effects of emissions of sulfur oxides to the air resulting from any conversions to burning coal to which section 119¹ of the Clean Air Act [42 U.S.C. 1857c-10] applies, the Department of Health and Human Services shall, through the National Institute of Environmental Health Sciences and in cooperation with the Environmental Protection Agency, conduct a study of chronic effects among exposed populations. The sum of \$3,500,000 is authorized to be appropriated for such a study. In order to assure that long-term studies can be conducted without interruption, such sums as are appropriated shall be available until expended.

# (c) Major Federal actions significantly affecting the quality of the human environment

(1) No action taken under the Clean Air Act [42 U.S.C. 7401 et seq.] shall be deemed a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.].

(2) No action under section 792 of this title for a period of one year after initiation of such ac-

tion shall be deemed a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.]. However, before any action under section 792 of this title that has a significant impact on the environment is taken, if practicable, or in any event within sixty days after such action is taken, an environmental evaluation with analysis equivalent to that required under section 102(2)(C) of the National Environmental Policy Act [42 U.S.C. 4332(2)(C)], to the greatest extent practicable within this time constraint, shall be prepared and circulated to appropriate Federal, State, and local government agencies and to the public for a thirty-day comment period after which a public hearing shall be held upon request to review outstanding environmental issues. Such an evaluation shall not be required where the action in question has been preceded by compliance with the National Environmental Policy Act by the appropriate Federal agency. Any action taken under section 792 of this title which will be in effect for more than a one-year period or any action to extend an action taken under section 792 of this title to a total period of more than one year shall be subject to the full provisions of the National Environmental Policy Act, notwithstanding any other provision of this chapter.

#### (d) Importation of hydroelectric energy

In order to expedite the prompt construction of facilities for the importation of hydroelectric energy thereby helping to reduce the shortage of petroleum products in the United States, the Federal Power Commission is hereby authorized and directed to issue a Presidential permit pursuant to Executive Order 10485 of September 3, 1953, for the construction, operation, maintenance, and connection of facilities for the transmission of electric energy at the borders of the United States without preparing an environmental impact statement pursuant to section 102 of the National Environmental Policy Act of 1969 [42 U.S.C. 4332] for facilities for the transmission of electric energy between Canada and the United States in the vicinity of Fort Covington, New York.

Federal Power Commission terminated and functions, personnel, property, funds, etc., transferred to Secretary of Energy (except for certain functions transferred to Federal Energy Regulatory Commission) by sections 7151(b), 7171(a), 7172(a)(1), 7291, and 7293 of Title 42, The Public Health and Welfare.

#### § 794. Energy conservation study

#### (a) Study of conservation methods

The Federal Energy Administrator shall conduct a study on potential methods of energy conservation and, not later than six months after June 22, 1974, shall submit to Congress a report on the results of such study. The study shall include, but not be limited to, the following:

- (1) the energy conservation potential of restricting exports of fuels or energy-intensive products, or goods, including an analysis of balance-of-payments and foreign relations implications of any such restrictions;
- (2) alternative requirements, incentives, or disincentives for increasing industrial recycling and resource recovery in order to reduce energy demand, including the economic costs and fuel consumption tradeoff which may be associated with such recycling and resource recovery in lieu of transportation and use of virgin materials; and
- (3) means for incentives or disincentives to increase efficiency of industrial use of energy.

# (b) Emergency mass transportation assistance plan

Within ninety days of June 22, 1974, the Secretary of Transportation, after consultation with the Federal Energy Administrator, shall submit to the Congress for appropriate action an "Emergency Mass Transportation Assistance Plan" for the purpose of conserving energy by expanding and improving public mass transportation systems and encouraging increased ridership as alternatives to automobile travel.

## (c) Recommendations in plan

Such plan shall include, but shall not be limited to—  $\,$ 

(1) recommendations for emergency temporary grants to assist States and local public bodies and agencies thereof in the payment of

operating expenses incurred in connection with the provision of expanded mass transportation service in urban areas;

- (2) recommendations for additional emergency assistance for the purchase of buses and rolling stock for fixed rail, including the feasibility of accelerating the timetable for such assistance under section 142(a)(2) of title 23 for the purpose of providing additional capacity for and encouraging increased use of public mass transportation systems:
- (3) recommendations for a program of demonstration projects to determine the feasibility of fare-free and low-fare urban mass transportation systems, including reduced rates for elderly and handicapped persons during nonpeak hours of transportation:
- (4) recommendations for additional emergency assistance for the construction of fringe and transportation corridor parking facilities to serve bus and other mass transportation passengers;
- (5) recommendations on the feasibility of providing tax incentives for persons who use public mass transportation systems.

#### TRANSFER OF FUNCTIONS

Federal Energy Administration terminated and functions vested by law in Administrator thereof transferred to Secretary of Energy (unless otherwise specifically provided) by sections 7151(a) and 7293 of Title 42, The Public Health and Welfare.

#### § 795. Report to Congress by January 31, 1975

The Administrator of the Environmental Protection Agency shall report to Congress not later than January 31, 1975, on the implementation of sections 3 through 7 of the Energy Supply and Environmental Coordination Act of 1974.

(Pub. L. 93-319, §9, June 22, 1974, 88 Stat. 261.)

#### REFERENCES IN TEXT

Sections 3 through 7 of the Energy Supply and Environmental Coordination Act of 1974, referred to in text, are sections 3 through 7 of Pub. L. 93–319, June 22, 1974, 88 Stat. 248–260, which sections enacted section 793 of this title and section 1857c–10 of Title 42, The Public Health and Welfare, and amended sections 1857c–5, 1857c–8, 1857c–9, 1857d–1, 1857f–1, and 1857h–5 of Title 42. Section 1857c–10 of Title 42 was repealed by Pub. L. 95–95, §112(b)(1). On enactment of Pub. L. 95–95, sections 1857c–5, 1857c–8, 1857c–9, 1857d–1, 1857f–1, and 1857h–5 were reclassified to sections 7410, 7413, 7414, 7416, 7521, and 7607, respectively, of Title 42.

## § 796. Reporting of energy information

## (a) Authority of Federal Energy Administrator to request, acquire, and collect energy information; rules and regulations

For the purpose of assuring that the Federal Energy Administrator, the Congress, the States, and the public have access to and are able to obtain reliable energy information, the Federal Energy Administrator shall request, acquire, and collect such energy information as he determines to be necessary to assist in the formulation of energy policy or to carry out the purposes of this chapter or the Emergency Petroleum Allocation Act of 1973 [15 U.S.C. 751 et seq.]. The Federal Energy Administrator shall

<sup>&</sup>lt;sup>1</sup> See References in Text note below.

promptly promulgate rules pursuant to subsection (b)(1)(A) of this section requiring reports of such information to be submitted to the Federal Energy Administrator at least every ninety calendar days.

## (b) Powers of Federal Energy Administrator in obtaining energy information; verification of accuracy; compliance orders

- (1) In order to obtain energy information for the purpose of carrying out the provisions of subsection (a) of this section, the Federal Energy Administrator is authorized—
  - (A) to require, by rule, any person who is engaged in the production, processing, refining, transportation by pipeline, or distribution (at other than the retail level) of energy resources to submit reports;
  - (B) to sign and issue subpenas for the attendance and testimony of witnesses and the production of books, records, papers, and other documents:
  - (C) to require any person, by general or special order, to submit answers in writing to interrogatories, requests for reports or for other information; and such answers or other submissions shall be made within such reasonable period, and under oath or otherwise, as the Federal Energy Administrator may determine; and
    - (D) to administer oaths.
- (2) For the purpose of verifying the accuracy of any energy information requested, acquired, or collected by the Federal Energy Administrator, the Federal Energy Administrator, or any officer or employer<sup>2</sup> duly designated by him, upon presenting appropriate credentials and a written notice from the Federal Energy Administrator to the owner, operator, or agent in charge, may—
  - (A) enter, at reasonable times, any business premise or facility; and
  - (B) inspect, at reasonable times and in a reasonable manner, any such premise or facility, inventory and sample any stock of energy resources therein, and examine and copy books, records, papers, or other documents, relating to any such energy information.
- (3) Any United States district court within the jurisdiction of which any inquiry is carried on may, upon petition by the Attorney General at the request of the Federal Energy Administrator, in the case of refusal to obey a subpena or order of the Federal Energy Administrator issued under this section, issue an order requiring compliance therewith; and any failure to obey the order of the court may be punished by the court as a contempt thereof.

# (c) Development of initial report; quarterly reports; accounting practices

- (1) The Federal Energy Administrator shall exercise the authorities granted to him under subsection (b)(1)(A) of this section to develop, within thirty days after June 22, 1974, as full and accurate a measure as is reasonably practicable of—
  - (A) domestic reserves and production;
  - (B) imports; and

- (C) inventories;
- of crude oil, residual fuel oil, refined petroleum products, natural gas, and coal.
- (2) For each calendar quarter beginning with the first complete calendar quarter following June 22, 1974, the Federal Energy Administrator shall develop and publish a report containing the following energy information:
  - (A) Imports of crude oil, residual fuel oil, refined petroleum products (by product), natural gas, and coal, identifying (with respect to each such oil, product, gas, or coal) country of origin, arrival point, quantity received, and the geographic distribution within the United States.
  - (B) Domestic reserves and production of crude oil, natural gas, and coal.
  - (C) Refinery activities, showing for each refinery within the United States (i) the amounts of crude oil run by such refinery, (ii) amounts of crude oil allocated to such refinery pursuant to regulations and orders of the Federal Energy Administrator, his delegate pursuant to the Emergency Petroleum Allocation Act of 1973 [15 U.S.C. 751 et seq.],¹ or any other person authorized by law to issue regulations and orders with respect to the allocation of crude oil, (iii) percentage of refinery capacity utilized, and (iv) amounts of products refined from such crude oil.
  - (D) Report of inventories, on a national, regional, and State-by-State basis—
    - (i) of various refined petroleum products, related refiners, refineries, suppliers to refiners, share of market, and allocation fractions:
    - (ii) of various refined petroleum products, previous quarter deliveries and anticipated three-month available supplies;
    - (iii) of anticipated monthly supply of refined petroleum products, amount of setaside for assignment by the State, anticipated State requirements, excess or shortfall of supply, and allocation fraction of base year; and
  - (iv) of LPG by State and owner: quantities stored, and existing capacities, and previous priorities on types, inventories of suppliers, and changes in supplier inventories.
- (3) In order to carry out his responsibilities under subsection (a) of this section, the Federal Energy Administrator shall require, pursuant to subsection (b)(1)(A) of this section, that persons engaged, in whole or in part, in the production of crude oil or natural gas—
  - (A) keep energy information in accordance with the accounting practices developed pursuant to section 503 of the Energy Policy and Conservation Act [42 U.S.C. 6383], and
  - (B) submit reports with respect to energy information kept in accordance with such practices

The Administrator shall file quarterly reports with the President and the Congress compiled from accounts kept in accordance with such section 503 and submitted to the Administrator in accordance with this paragraph. Such reports shall present energy information in the categories specified in subsection (c) of such section 503 to the extent that such information may be

## TRANSFER OF FUNCTIONS

Federal Energy Administration terminated and functions vested by law in Administrator thereof transferred to Secretary of Energy (unless otherwise specifically provided) by sections 7151(a) and 7293 of Title 42, The Public Health and Welfare.

Federal Power Commission terminated and functions, personnel, property, funds, etc., transferred to Secretary of Energy (except for certain functions transferred to Federal Energy Regulatory Commission) by sections 7151(b), 7171(a), 7172(a)(1), 7291, and 7293 of Title 42.

## § 797. Enforcement

## (a) Violations

It shall be unlawful for any person to violate any provision of section 792 of this title (relating to coal conversion and allocation) or section 796 of this title (relating to energy information) or to violate any rule, regulation, or order issued pursuant to any such provision.

## (b) Penalties; injunctions; declaratory judgments

- (1) Whoever violates any provision of subsection (a) of this section shall be subject to a civil penalty of not more than \$2,500 for each violation.
- (2) Whoever willfully violates any provision of subsection (a) of this section shall be fined not more than \$5,000 for each violation.

(3) It shall be unlawful for any person to offer for sale or distribute in commerce any coal in violation of an order or regulation issued pursuant to section 792(d) of this title. Any person who knowingly and willfully violates this paragraph after having been subjected to a civil penalty for a prior violation of the same provision of any order or regulation issued pursuant to section 792(d) of this title shall be fined not more than \$50,000, or imprisoned not more than six months, or both.

(4) Whenever it appears to the Federal Energy Administrator or any person authorized by the Federal Energy Administrator to exercise authority under section 792 of this title or section 796 of this title that any individual or organization has engaged, is engaged, or is about to engage in acts or practices constituting a violation of subsection (a) of this section the Federal Energy Administrator or such person may request the Attorney General to bring a civil action to enjoin such acts or practices, and upon a proper showing, a temporary restraining order or a preliminary or permanent injunction shall be granted without bond. In such action, the court may also issue mandatory injunctions commanding any person to comply with any provision, the violation of which is prohibited by subsection (a) of this section.

(5) Any person suffering legal wrong because of any act or practice arising out of any violation of subsection (a) of this section may bring a civil action for appropriate relief, including an action for a declaratory judgment or writ of injunction. United States district courts shall have jurisdiction of actions under this paragraph without regard to the amount in controversy. Nothing in this paragraph shall authorize any person to recover damages.

(Pub. L. 93-319, §12, June 22, 1974, 88 Stat. 264.)
